RE: FCC Form 305 for Assignment of Authorization

Dear Sir or Madam:

Enclosed herewith, on behalf of CS Wireless Systems, Inc (debtor-in-possession) ("WorldCom"), and Nextel Spectrum Acquisition Corp., a subsidiary of Nextel Communications ("Nextel"), is an FCC Form 305 for assignment

The application requests the assignment of WorldCom's Multipoint Distribution Service ("MDS") and Multichannel Multipoint Distribution Service ("MMDS") licenses to Nextel Also included is an FCC Form 159 for payment of the associated FCC filing fees via credit card payment.

If you have any questions or require additional information regarding this matter, please contact the undersigned at (703) 433-4211

Respectfully submitted,

Robin J. Cohen

Manager, Regulatory

Enclosures

FCC 305

# FCC Wireless Telecommunications Bureau Application for Consent to Assignment of Multipoint Distribution Service Authorization

Approved by OMB 3060 - 3851 See instructions for public burden estimate

2 Provide the following information for each license authorisisment is sought in this application	rized to or Basic Tradin	g Area ("BTA") authoriza	ation held by the assignor for which
assignment is sought in this application			
CALL SIGN/BTA NUMBER LOCATION(CITY/	STATE) F	LE NUMBER	EXPIRATION DATE
See Exhibit 1			
3 Does the assignor seek assignment of its authorizati	on for a Basic Trading	Area ("BTA") or a	YES X NO
Partitioned Service Area ("PSA") which was received bidding process?			<del></del>
If YES, attach as an Exhibit the associated contracts	for sale, option agreer	nents management	T.I.I.
agreements or other documents disclosing the total	consideration that the a	ssignor will receive	Exhibit No
in return for assignment of its authorization			<u> </u>

Si	ECTION II – (continued)		
4	Does the assignor seek assignment of a conditional license prior to the completion of construction of the facility and the timely filing of the certificate of completion of construction?	X YES	NO
	If YES, attach as an Exhibit	Exhibit N	o
	(a) the following information for each of the incomplete or Unconstructed facilities listed in Item 2 (i) call sign, (ii) file number, (iii) date by which construction must be completed, and (iv) whether the facilities were authorized following a comparative hearing or pursuant to the	[ II.4	
	random selection proceeding in which the successful applicant received a preference, and whether the facilities have been operated for less than one year, and		
	(b) the detailed showing and declarations of the applicants required by 47 C F R § 21 39 which demonstrate that the proposed assignor has not acquired the authorization or operated the station for the principal purpose of profitable sale rather than public service		
5	Are there any agreements, oral or written, involving use and/or control of the station?	X YES	☐ NO
	If YES, attach as an Exhibit a copy of any such agreement(s). If there is only an oral agreement, reduce the terms to writing and attach	Exhibit No	,
6	Attach as an Exhibit a copy of the contract or agreement to assign the property and facilities of the station. If there is only an oral agreement, reduce the terms to writing and attach	Exhibit No	
C	ERTIFICATION		

By checking YES, the applicant certifies that in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to § 5301 of the Anti-Drug Abuse Act of 1988, 21 U S C § 862, or, that in the case of a nonindividual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a "party" for these purposes, see 47 C F R § 1 2002(b) Failure to check YES may cause dismissal of your application

The ASSIGNOR acknowledges that all the statements made in this application and the attached Exhibits are considered material representations, and that all Exhibits are a material part hereof and incorporated herein.

The ASSIGNOR represents that this application is not filed for the purpose of impeding, obstructing or delaying determination on any other application with which it may be in conflict

In accordance with 47 C F R § 1.65, the ASSIGNOR has a continuing obligation to advise the Commission, through amendments, of any substantial and significant changes in information furnished

I certify that the ASSIGNOR'S statements in this application are true, complete and accurate to the best of my knowledge and belief, and are made in good faith

Docket No 03-66, has determined "that it is in the public interest to suspend the construction deadline for MDS site-based licensees and permittees that have unexpired licenses or permits." Amendment of Parts 1, 21, 73, 74, and 101 of the Commission's Rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150 – 2162 and 2500 – 2690 MHz Bands, Notice of Proposed Rulemaking and Memorandum Opinion and Order, FCC 03-56, rel. April 2, 2003 ("2.5 GHz NPRM"), at paragraph 201, as amended by Order, FCC 03-169, released July 10, 2003 ("Clarification Order"), at paragraph 3. In the 2.5 GHz NPRM at paragraph 200, as amended by the Clarification Order at paragraph 5, the Commission also relieved MDS BTA authorization holders of the obligation to meet the build-out deadline set forth in Section 21 930 of the Commission's Rules.

(a)(1v) All of the BTA facilities were authorized pursuant to auction. Assignor provides the following information about site-specific licenses. WLW859 was awarded by lottery. WNTI314 was authorized by standard application (the station had previously been an OFS station). Assignor believes, but does not know for certain, that WMX942 and WMX943 were awarded by lottery. To the best of Assignor's knowledge, the initial licensees of the stations awarded by lottery did not receive a preference

#### (b) Showing required pursuant to Section 21.39 of the Commission's Rules

Section 21 39 of the Commission's Rules requires Assignor to demonstrate that it has not acquired the authorizations or operated the stations with the principal purpose of profitable sale rather than public service. In response, Assignor states as follows. Pursuant to Section 21.934, the anti-trafficking provisions of Section 21 39 do not apply to the assignment of BTA authorizations acquired pursuant to the Commission's competitive bidding procedures. Assignor (or its predecessors-in-interest) acquired all of its BTA authorizations pursuant to the 1996 auction of MDS BTAs. Further, the four site-specific conditional licenses that are part of this Application are incidental to a much larger transaction. Finally, Assignor purchased these licenses in 1999, and Assignor is not making a profit on the sale of these licenses. These licenses clearly have not been "warehoused" for purposes of assigning them to make a profit. Rather, as explained in the Public Interest Statement filed with this application, the rights in these licenses as well as other assets are being sold pursuant to an auction approved by the bankruptcy court as part of the reorganization of Assignor's business and financial structure under Chapter 11 of the U.S. Bankruptcy Code. The proposed transaction consequently does not involve trafficking in licenses. To the extent a waiver of Section 21.39(a) is required, Assignor and the Assignee hereby request such a waiver for the reasons stated above. As demonstrated above, the underlying purpose of Section 21 39(a) – preventing the trafficking of licenses – will not be undermined by the proposed transaction See, e.g., In re Applications of American Communication Services, Inc., 3 FCC Rcd 6195 (1988)

Section 21 39(a), 47 C F R § 21 39(a), prohibits the assignment of site-specific conditional licenses prior to completion of construction as part of Section 21 39's general prohibition against the trafficking in MDS licenses

It should also be noted that the current regulatory structure governing MMDS and MDS channels has created uncertainties and at times discouraged licensees from constructing station facilities. As the Commission has recognized in a pending proceeding that proposes substantial revisions to these rules, "the existing regulatory structure has limited the ability of operators to deploy two-way services and made it nearly impossible to provide mobile services." In the Matter of Amendment of Parts 1, 21, 73, 74 and 101 of the Commission's Rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 and 2500-2690 MHz Bands, Notice of Proposed Rulemaking and Memorandum Opinion and Order, 18 FCC Red 6722, ¶ 2 n 3 (2003). The Commission has in similar circumstances regarding 800 MHz SMR channels relaxed restrictions on the assignment of licenses. See In the Matter of Amendment of Part 90 of the Commission's Rules to Facilitate Future Development of SMR Systems in the 800 MHz Frequency Band, Second Report and Order, 12 FCC Red 19079, ¶ 44 (1997) (noting that an application treeze and uncertainty caused by the lengthy pendency of a rulemaking proceeding made it difficult for legitimate licensees to develop their systems)
